What is Fast Play?

Fast Play® is a series of games that have a variety of play styles and prize types. Every Fast Play ticket is generated at the time of purchase with a set of numbers and/or symbols printed on it, depending on the game selected. With Fast Play games, a jackpot win could happen right away as there is no waiting for a drawing to take place, and you'll know immediately if you've won.

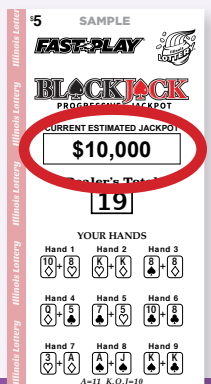

About Set Games

Set Fast Play games have a set top prize, and players are able to win various prizes up to and including the top prize.

About Progressive Games

For progressive games, the jackpot begins at a base minimum and grows with each ticket sold statewide until the jackpot is won.

You can find estimated jackpot amounts at any Illinois Lottery retailer and on the website, IllinoisLottery.com. The jackpot amounts are

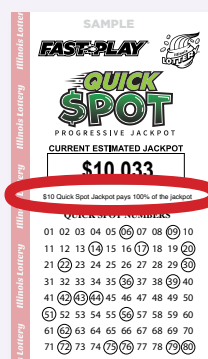

updated every two minutes. The jackpot amount is listed near the top of your ticket, showing the jackpot at the time of purchase. Once the jackpot is won, it resets to the base minimum.

In progressive games, a single ticket holder is awarded the entire jackpot.

Remember that you can win other cash prizes, besides the jackpot, on progressive games, so be sure to check your ticket carefully!

About Progressive Suite Games

Just like the progressive games, the jackpot begins at a base minimum and grows with each ticket sold statewide until the the jackpot is won. The difference is you have the opportunity to pick a wager for a percentage of the jackpot.
