FAST-PLAY® The Fastest Way to Play

Fast Play® is coming to your Illinois Lottery terminal in late September 2020. Fast Play games are quick and easy draw games that are available for purchase through the Photon terminal or Win30. There are no numbers to pick, no play slips to complete, no scratching, and no drawing that requires waiting.

Game Type	Fixed	Fixed	Progressive	Progressive
Game Details	Eliminate the numbered coins in the Piggy Bank that match YOUR PIGGY BANK NUMBERS. Win the PRIZE amount beneath the last remaining coin.	Add the value of the two dice in each ROLL. If the total of any of YOUR ROLLS matches the total of the HOT ROLL, win the corresponding prize for that ROLL. Each ROLL is played separately. Win up to 5 times.	If the total in each of YOUR HANDS is higher or equal to the DEALER'S TOTAL, you win the HAND. Add up the total number of wins and ties then win the corresponding prize shown in the PRIZE LEGEND. Each HAND is played separately.	Match three like symbols out of the five in any SPIN across, win the corresponding prize shown in the PRIZE LEGEND. Each SPIN is played separately.

These four new games feature fixed (i.e., predetermined top prizes) and progressive (i.e., rolling jackpots) prizes. In a progressive Fast Play game, the jackpot begins at a set minimum and grows with each ticket sold State-wide, until someone wins. After the jackpot is won, it immediately resets to the minimum jackpot amount.

Why should you promote and sell Fast Play?

Fast Play is a new way to earn additional money at your store.

- Fast Play is an incremental source of revenue for your store.
 - » Three state lotteries launched Fast Play in 2018 and saw an over 5% increase in total lottery sales from the previous year.

- 2 out of 3 winners reinvest at least part of their win back in lottery products.*
